

## NASSAU NEUROPSYCHOLOGICAL SERVICES

THE CARE AND KNOWLEDGE TO HELP YOU GROW

**Is your child struggling in school?**

**Do you think your child might have a learning disability? Dyslexia? ADHD?**

**Would your child benefit from additional time on exams?**

**If the answer to any of these questions is YES, we can help...**

**A neuropsychological evaluation is a comprehensive evaluation of cognitive and behavioral functioning that allows us to better understand your child's functioning in areas such as memory, attention, perception, coordination, language and personality.**

**This information will help you and your child's teacher, therapists and physicians provide treatments and interventions for your child that will meet his or her unique needs.**

**Call today for a FREE phone consultation**

**Dr. Elizabeth Axel, Ph.D.**

### Leading Edge Award

Top 16% of Agents Company Wide

2020 Ellies

# Congratulations

to all 2020 POBJFK Graduates!

As we continue to rebuild our community, **Don't Leave Me Hanging** is offering all local businesses 50% off ads placed through December 2020. Please mention POBJFK when contacting us. We will all rebuild together.

Are you a business looking for  
**a UNIQUE and EFFECTIVE**  
**marketing strategy**  
 that attracts the interest of  
 your **LOCAL** target market?

Advertising on garment hangers provides **YOUR BUSINESS** with frequent, visibility providing consistent exposure to your brand

Even the smallest discount coupons draw **NEW** and **REPEAT** customers to your business

Advertisements starting at \$595 per year for direct to consumer, in home advertising!

More Frequency  
 More Effective!

**EXCLUSIVITY**  
 in areas of your choice

The Rule of 7:  
 A prospect needs to see or hear your marketing message **AT LEAST 7** times before they take action and buy from you!

Consumers will see **YOUR AD** for an entire Year!

**High Visibility** - You are one of no more than 12 advertisers. Not one of 100s in the community mailers.

**Longer Shelf life** - Your ad is seen when the customer picks up their dry cleaning, again when placed in the car, and again when hung in their closets. Providing immediate visibility while also giving your brand long-term exposure and daily long-lasting in-home marketing.

**Low Cost** - A simple 2 1/2 x 1 3/4 ad or coupon starts as low as \$595 for 37,500 covers. That allows for your ad to be seen over **35,000** times!!!

**Exclusivity** - We can provide your business with exclusive rights to your requested market where available.

## LET'S TALK Disinfection at the Touch of a Button

We use no toxins  
or chemicals.

### No Touch Process

We use no toxins or chemicals. We don't spray or fog any liquids. We leave no residue or odor. Our technicians move nothing. You leave everything—even desktop papers—exactly where it was.

### Highly Effective

UVC plus UVC-O combine to kill all microbes, including bacteria, fungi, protozoans, and viruses.

### Certification

Our UV fixtures are ETL and FCC certified. Our technicians are OSHA certified.

## At BluZap What Do We Do?

- ★ We kill all microbes—including viruses—using only ultraviolet light
- ★ We use state-of-the-art BLUZAP technology, combining UVC and UVC-O light
- ★ Our OSHA certified professionals are trained for safety and efficacy
- ★ Indoor air and all surfaces are disinfected with 99.99% efficiency
- ★ Ideal for all indoor spaces, including but not limited to offices, factories, warehouses, gyms, retail, restaurants, healthcare facilities, schools, libraries, museums, and houses of worship

Email: [info@kilcap.com](mailto:info@kilcap.com)  
Phone: 631-748-6885

## The BLUZAP Process

First, our team will perform a "walk through" to survey the areas that are to be disinfected, in order to measure and make sure the area is unoccupied. We will not touch or move any furniture or machinery. We ensure that windows and doors are closed, and that the area is ready for disinfection.

Based on square footage and "furthest point" from our UV lamps, we determine the number and type of lamps to be used, and calculate necessary active disinfection time. Our team then places the UV fixtures for optimum results.

- ★ 600W UVC-O fixtures are to be placed in large areas
- ★ 50W UVC fixtures will be placed in smaller areas such as bathrooms if required.

Entrances will be sealed with plastic if necessary, and caution tape and "disinfection in progress" signs are placed at all entry points to the area.

All UV fixtures will be turned on simultaneously by our team.

After the disinfection is complete, we remotely turn the fixtures off. The post-disinfection ventilation period is generally double the time of active disinfection.

During the disinfection/ventilation time the treated area is not accessible.

We remove the UV Fixtures and any protection, tape etc. – leaving the facility exactly as we entered it.

The facility is provided with a "Disinfected by Bluzap" certificate and a digital website banner to provide your employess and customers with peace of mind that your facilities are using the safest and most effective technology available to keep them healthy.
